A

AMENDMENT AND RESPONSE UNDER 37 CFR 1.111

In response to the USPTO Official Action mailed on July 17, 2002, please amend the above-identified application as follows:

In the Specification

On page 12, please delete the third full paragraph and, in lieu thereof, please insert the following:

A¹ It is apparent from Figure 1 that every sample expressed β -interferon mRNA and that β -interferon was induced in a dose-depending manner. The agent of present invention induced more β -interferon than the poly (I) poly (C) alone did.

On page 12, please delete the fourth full paragraph and, in lieu thereof, please insert the following:

A² The amount of expressed β -interferon mRNA in mouse tissues other than liver was determined in the same manner as Text Example 1. The result is shown in Figure 2.
